this book is about the meaning of disability in schools the experience of children with disabilities in schools has undergone substantial change over the last twenty years and more with many children who would have once been living in institutions now going to school alongside their peers with this monumental shift and the continuing increased

participation of people with disabilities one might wonder what disability means in the age of institutionalisation disability referred to those people who were not able to actively participate in society as it turns out many of the people who were deemed unable to participate were so only because the society in which they lived had kept them from active participation through institutionalisation in ontario canada where the author lives and works many adults with disabilities continue to live in institutions and are also active in their communities so it is not just the institutions that disable people there are many reasons that people fall into the classification of disabled and for some this classification begins in an institution often in the institution of school this book explores the different beliefs that teachers and parents hold about disability and the types of barriers that cause disability and how these beliefs translate into education practice

what s public about public schools why do we invest in educating the next generation of americans what is it that drives our common purpose in educating children and at the same time divides us so passionately about how to educate them public schools have little to do with children schools are political and ideological institutions in which each generation battles among itself for supremacy in determining the purposes goals and direction of public education from battles over school lunch to school dress to school prayer each generation reinterprets and recapitulates the political and ideological arguments that date back to the founding of our nation more than two centuries after the american revolution public schools serve as political battlefields for debates about religious freedom and whether students should be allowed to wear u s flag teeshirts we invite you to join us in an exploration of the purposes of public schools the competing visions of public education and the values of the public good that comprise the public in public schools
